

## **Mini Crawlers**

Used Mini Crawler Wisconsin - We have designed a lot of programs for Mobile Crane Operation at our Crane Training Schools. These programs are recommended for the experienced operator who requires certification or re-certification, and for inexperienced operator who is looking for work in the business. Crane operator positions are in demand because of their high rates of pay. Operators of cranes are among the highest paid of whatever operator of heavy equipment. Our Crane Operator training provides instruction for various mobile cranes. Course subject includes Wire Rope, Crane Set-up, Lift Planning, Load Dynamics, Load Charts, Rigging, and Signaling. The Crane Training School program is best for riggers, supervisors and operators. Course materials include a manual and informative hand-outs. The illustrated safety guidebook features one hundred to two hundred fifty pages, that depends on the course, of important and useful material. Course materials include load charts and load chart exercises for the crane with which the trainee is working. Hands-On Safety Training will take up more than half of the course curriculum. The practical training part is the most effective method to improving and developing personal skill levels. Only qualified journeyman crane instructors are chosen to teach the courses. Our instructors have many years of business experience. For all the course we offer, we could include optional testing mechanisms to customize your training. A skills test is usually administered for programs that include H.O.S.T. Trainees would be graded and tested. We provide certified training programs for the following cranes: Lattice Boom/Crawler Cranes; Fixed and Swing Cab Mobile Hydraulic Cranes; Articulated Boom/ Knuckleboom Cranes; Rigging / Signalperson Certification and Training; Testing & Certification; and In-The-Seat Training. Business standards of practice are changing as new trade requirements emerge. There are constant updates to regulations and legislation. Enhancements in technology and equipment continue to be made. Industry data collection and analysis detect trends that are changing. Members maintain the privilege of managing their training programs and certifications. Mobile device alerts keep members abreast of personal and workplace safety news.
